About Us
Community Homeless Solutions is Monterey County's largest provider of homeless housing and emergency shelter beds, including shelter for women and children fleeing domestic violence.

For over 44 years, we have successfully impacted the community by creating opportunities for people to move forward. We provide information, motivation, and compassion to our clients through case management, counseling, referrals, mentoring, career guidance, and enrichment activities.

Over 200 people are housed or find nightly shelter in our 6 programs. Over 90% of our domestic violence shelter guests transition into safe, stable, and permanent housing while 25%-65% of homeless and chronically homeless adults move from our various shelter programs into stable or permanent housing.

In an effort to reduce and end homelessness and domestic violence, we collaborate with many other non-profits, public agencies, private foundations, community groups, and individuals. For those people who are homeless or are fleeing domestic violence, we humbly offer our services and invite you to review our website. For those working to end homelessness and domestic violence, we hope you will consider becoming a partner.
